MedInsight® **Provider Solution**

The new MedInsight Provider Solution enables ACOs and at-risk providers to get the most out of your healthcare data.

The Provider Solution allows information to flow for many of your business needs, including managing contractual performance targets, offering advanced stratification of member cohorts for population health teams, and navigating your organization's progress through the analytic maturity spectrum to compete more effectively in your market.

The MedInsight Provider Solution leverages the power of the MedInsight Data Confidence Model and Data Warehouse for accurate aggregation and data analysis. One of the biggest challenges facing providers today is aggregating and formatting a wide variety of data sources. Our data accuracy and refresh times are industry leading, enabling organizations to have end-to-end data analysis available in days, not weeks.

Dynamic and Ad Hoc Analytic Reporting Tools

The MedInsight Provider Solution delivers on-demand, pre-built reports, advanced query reporting tools for on-the-fly reporting, and over 60 methodologies to make data management, cost, utilization, and quality reporting drive your business intelligence strategies and actions. Delivering results to your organization will be easier through the use of our advanced Data Mart and dashboarding features.
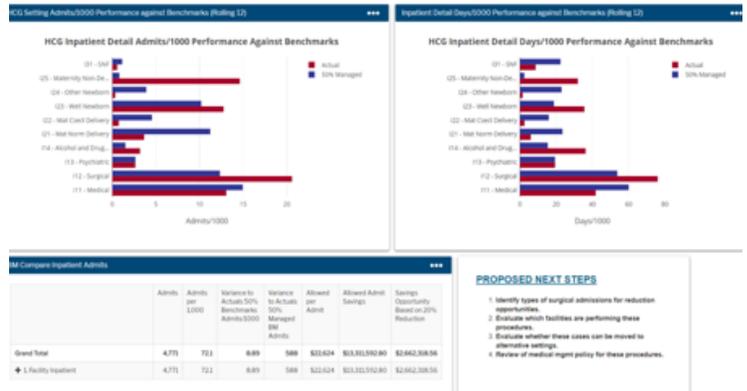

Business Use Cases

MedInsight's products and services can help you bridge the critical gap between care and cost management by giving you one universal view of your data with smarter benchmarks, relevant analytics, and guidance on how best to react. With MedInsight, you not only have access to the data you need, you can also answer the "Why?" and "Now what?" questions that help you address your critical business challenges, such as:

- Financial performance management: actual vs budget
- Medical management: population health, care coordination, gaps in care, and utilization management
- Provider performance management: efficiency and leakage
- Risk stratification and optimization
- Identification of low value care and avoidable admissions
- Risk contract management: MSSP, Medicare Advantage, Medicaid and Commercial
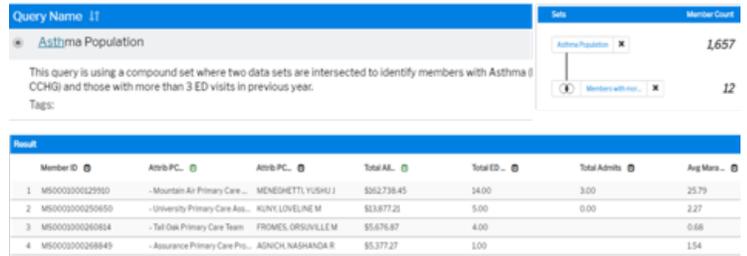

Deeper Dive on Use Cases

FINANCIAL PERFORMANCE MANAGEMENT—BENCHMARK COMPARISON

In the healthcare industry today, leaders need to know how an organization is performing from a financial perspective. Quickly gain insight into big-picture financial performance to understand how your organization's performance compares to Milliman's custom-engineered benchmarks. Easily identify actionable cost-drivers—from the aggregate book of business level to the individual patient—by leveraging MedInsight's flexible and customizable reporting capabilities.

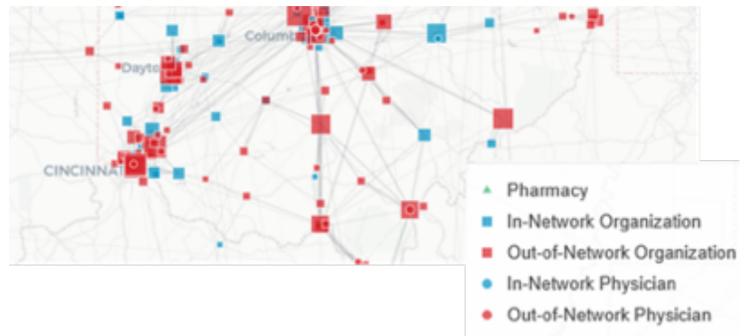

MEDICAL MANAGEMENT—COHORT ANALYSIS FOR TARGETED CASE FINDING

MedInsight offers a comprehensive picture of your population, sub-population, or individual patient's care across the healthcare continuum. Integrating multiple types of data (clinical, claims, etc.) in the MedInsight Provider Solution enables a 360-degree view and allows you to be confident in your data-driven population health decisions. Our advanced analytic solution enables you to create cohorts for targeted case findings to enhance population health initiatives.

PROVIDER PERFORMANCE MANAGEMENT AND EFFICIENCY

Understanding and managing provider performance in a network is easier than ever with the MedInsight Provider Solution. The solution analyzes data to help you evaluate providers by quality indicators, efficiency, waste identification, and cost effectiveness. Leveraging machine-learning-based tools, you can more proactively identify network leakage and review the management of events or episodes of care.

![Milliman]

Milliman is an independent consulting, benefits, and technology firm.
