

Kris Bjarnason

Information Technology Consultant, Network Administrator

CURRENT RESPONSIBILITY

Kris is an information technology consultant and network administrator with the Seattle office of Milliman. He joined the firm in 2003.

EXPERIENCE

Prior to joining Milliman, Kris served as a technology specialist with various organizations, serving as the first level of support for network, application and server-related problems.

Kris brings a wide variety of expertise to Milliman including the engineering of advanced networks, extensive Microsoft Windows Server platform experience, Microsoft Active Directory design and implementation, and SQL Server administration.
