

## Dirk Dallas

ASA, MAAA  
Associate Actuary

### CURRENT RESPONSIBILITY

Dirk is an ASA and an associate actuary with the San Diego office of Milliman. He joined the firm in 2014. Prior to joining Milliman, Dirk was a personal lines underwriter for a property and casualty insurance broker.

### EXPERIENCE

Since joining Milliman, Dirk has performed work for a variety of different clients, including HMOs, PPOs, large employers, trusts, and a state-based exchange. His experience includes:

- Actuarial certification of qualified health plan benefit designs using the federal actuarial value calculator
- Calculating actuarial values for managed care health plan designs
- Claim reserve analysis
- Developing expected utilization and cost benchmarks for commercial populations
- Group pricing and rate filings
- Healthcare reform
- Projection of healthcare costs
- Research projects

Dirk has worked with multiple states in the development and analysis of Essential Health Benefits (EHB) plan options, including estimating the impact of selecting a new benchmark plan with differences in covered benefits. The analyses were a result of the requirements enacted by the Patient Protection and Affordable Care Act (ACA) for establishing EHB to be used by certain insurance plans in 2014 and later.

### PROFESSIONAL DESIGNATIONS

- Associate, Society of Actuaries
- Member, American Academy of Actuaries

### EDUCATION

- BA, Mathematics, Humboldt State University
