

François Dauphin

FSA, MAAA
Consulting Actuary

CURRENT RESPONSIBILITY

François Dauphin is a consulting actuary with the Boston office of Milliman. He joined the firm in 2011.

EXPERIENCE

François has assisted life and annuity insurance companies on a wide variety of corporate financial management matters. His assignments include U.S. statutory and GAAP financial reporting, external audit and corporate modeling such as insurance company appraisals, merger and acquisition opportunities, and S-1 filings.

His assignments also include reserve and capital calculations of off-shore insurance and reinsurance business with focus on the Bermuda and the Cayman Islands markets. He serves as the approved actuary for two Bermuda-domiciled companies.

François has experience building financial models on various platforms such as Milliman's MG-ALFA® actuarial software, PolySystems HealthMaster, and LifeMaster.

Prior to joining Milliman, François spent seven years at a large multiline life insurance company, where he held positions in individual life financial reporting, annuity product development and management, and sales illustration system development and implementation.
