

### Mathieu Doucet

FSA, MAAA  
Actuary

#### CURRENT RESPONSIBILITY

Mathieu is an actuary with the Milwaukee office of Milliman. He joined the firm in 2002.

#### EXPERIENCE

Mathieu's area of expertise is healthcare programs, including managed healthcare, Medicare risk contracts, Medicare Part D, and Medicaid acute and long-term care populations.

He has assisted clients with provider capitation analyses, pricing, valuation of liabilities, product design, financial projections, financial reporting, and experience analysis. Mathieu has advised many organizations, including HMOs, insurance companies, Medicaid health plans, state agencies, employers, and healthcare providers.

He is experienced with reserve calculation, experience analysis through the use of databases and statistical programming, commercial managed care plans, production of utilization benchmarks, and projection of commercial, Medicare, and Medicaid utilization and cost.

Mathieu has been involved with Medicare feasibility studies, Medicare Advantage filings, Medicaid capitation rates development and program analysis, small group certifications, specific and aggregate stop-loss arrangements, and drug benefit valuation.

Mathieu is fluent in French and English.
