

**Eric P. Krafcheck**  
FCAS, MAAA, CSPA  
Consulting Actuary

## CURRENT RESPONSIBILITY

Eric Krafcheck is a consulting actuary with the Milwaukee office of Milliman. He joined the firm in 2011.

## EXPERIENCE

Eric's area of expertise is in property and casualty insurance, particularly in predictive modeling, ratemaking, loss reserving, and data management/programming. He has experience in numerous lines including personal auto, homeowners, professional liability, general liability, workers' compensation, as well as commercial property. He has provided actuarial services to entities ranging from large multi-line personal and commercial insurers to self-insured programs.

Services provided include:

- Predictive modeling, including the following applications:
  - Pricing;
  - Underwriting
  - Retention and lifetime value
- Ratemaking analyses
- Development of class plans, including:
  - Use of consumer credit and other third party data
  - By-peril analyses
  - Territory analyses using modeled catastrophe, historical, and competitor data as well as third party location score data
- Competitive analyses
- Countrywide filing and implementation support, including filing and support of predictive models
- Reserving analyses
- Preparation of Statements of Actuarial Opinion
