

Tim D. Lee

FSA, MAAA
Principal, Consulting Actuary

CURRENT RESPONSIBILITY

Tim Lee is a principal and consulting actuary with the Houston office of Milliman where he manages the healthcare practice. He joined the firm in 1977.

EXPERIENCE

Tim's area of expertise is health insurance. He has advised clients on the design and pricing of insurance programs, the projection and monitoring of financial results, risk management, financial reporting, strategic planning, and mergers and acquisitions. Clients served include insurance companies, HMOs, provider networks, hospitals, physician groups, employee benefit plan sponsors, and governmental entities. He has broad experience in working with indemnity and managed care programs for both purchasers and insurers of healthcare in the commercial, Medicare, and Medicaid markets.

Tim has assisted health insurers and healthcare providers in managed care contracting, fee schedule development, and risk sharing arrangements, and has guided new ventures and start-up organizations in the health insurance market. In recent years, Tim has worked with several state and local governments to develop solutions for the uninsured population. He also has experience with health insurance systems in Latin America.

PRESENTATIONS

Tim is a contributing author of two books, *Calculated Risk* and *Managing Risk*, both published by the American Hospital Association.
