

David R. Mike

FSA, MAAA
Consulting Actuary

CURRENT RESPONSIBILITY

David is a consulting actuary with the Milwaukee office of Milliman. He joined the firm in 2016.

EXPERIENCE

David has more than 10 years of health actuarial experience in managed care pricing, financial reporting, strategic analysis, and regulatory analysis and compliance. His areas of expertise include Medicare Advantage, Medicare Prescription Drug, and general prescription drug market analytics.

In the Medicare market, David has assisted clients in the design and pricing of Medicare Advantage and Prescription Drug plans, analyzing the impact of proposed legislative and regulatory changes, projecting and analyzing risk adjustment payments, and various other strategic engagements.

In the prescription drug industry, David has worked with manufacturers, insurers, and other entities, advising them in the areas of payment strategy and regulatory issues affecting the market.

Prior to Milliman, David worked at a large managed care organization as a certifying actuary for Medicare Advantage and Medicare Prescription Drug plan bids. He also worked in roles in commercial pricing, corporate strategy, and regulatory analysis.
